EBIT	4,8	3,0	7,6	8,9	18,6	19,8

COMMENTS FROM THE GROUP CEO

Despite a quarter without licensing deals of real dignity, we accomplish a good quarter. We have continued our work to review the cost, thus improving our margins. Virtually all business areas show better margins compared to the same period last year.

Orders wise, it is interesting to highlight that our product LaserNet continues to win business around the world, and that these transactions are often generated by our partners and sold as a cloud service. Even in the loss-making field of Life Science, we find bright spots in the form of lost business as a pure cloud service.

We see an increasingly clear trend of increased demand for cloud services in all our customer groups. Needless to say these transactions will give no positive effect on the result initially but it creates stable recurring revenue streams over time. Software delivered as a cloud service also facilitates additional sales over time, where an additional module can be easily added to an existing customer without large delivery projects as a result. The delivery project to Stockholm city is proceeding according to plan, the first tollgate of the project plan was

passed and approved during the quarter. So far, slightly above 10 million to revenues, which exclusively is made up of consultancy revenue. No part of the systems revenues has yet been entered in the accounts. The project is weighing on cash flow, and explains why it is weaker than we normally perform.

During the quarter we received additional purchase price of just over 3 million relating to the divested business area customized consulting services. In order to improve our margins, we have continued our efforts to create a more cost-effective organization structure. Restructuring costs, primarily relating to management, has been included in their entirety in the quarter and accounted for as non-recurring items.

Personnel expenses in the quarter is higher than normal, which is largely explained by an adjusted basis of accruals for variable compensation. The quarter was burdened thereby of costs attributable to prior periods. Costs will be back at the normal level to the next quarter.

SIGNIFICANT EVENTS DURING THE PERIOD APRIL – JUNE 2016

ORDER FROM A DANISH AUTHORITY

Formpipe received a supplementary order on the Grants management product TAS from a Danish authority. The total order value amounts to SEK 1.8 million.

UK LASERNET ORDER

Formpipe received an order on the ECM product Lasernet through a UK based partner. The total order value amounts to SEK 2.1 million over a four year period.

ORDER FROM TWO MUNICIPALITIES

Formpipe received an order for Long-Term Archive from two Swedish Municipalities. The total order value amounts to SEK 1.4 million.

ORDER FROM BLUEFISH PHARMACEUTICALS

Formpipe received an order from Bluefish Pharmaceuticals regarding a cloud-based Enterprise Compliant Platform, for managing their Quality Management processes. The total order value amounts to SEK 3.6 million over five years.

ANNUAL GENERAL MEETING

At the AGM on April 25 decisions were made regarding:

- Adoption of the income statement and balance sheet for the 2015 financial year.
- The re-election of Bo Nordlander, Kristina Lindgren and Charlotte Hanson as board members and the election of Peter Lindström and Martin Henricson as new board members. Bo Nordlander was re-elected as chairman of the board.
- The re-election of the auditing firm PricewaterhouseCoopers AB as the auditors of the Company with Aleksander Lyckow as the principal auditor.
- Principles for the Nomination Committee.
- The AGM approved the Board's proposal to authorise the Board to issue new shares or convertibles.
- The AGM approved for the Board to acquire and transfer the company's own shares.
- The AGM approved the issue of share warrants to the personnel.
- The AGM approved for the proposal regarding guidelines for remuneration to senior executives.

ISSUE OF WARRANT INCENTIVE PROGRAM

It was decided at the AGM held on 25 April to issue 500 000 warrants offered to all employees within the Formpipe Software group, where one option gives the right to subscribe for one new share. The programme was fully subscribed.

INCREASED NUMBER OF SHARES

During the period the personnel warrant program 2013/2016 was exercised. A total of 1 130 2016 new shares were issued from this program. The number of shares and votes in the Company has therefore increased with 1 130 206 and the share capital has increased with SEK 113 020.6. After the issue of new shares, the total number of shares and votes in the Company amounts to 51 273 608 and the share capital to SEK 5 127 360.8.

SIGNIFICANT EVENTS AFTER THE PERIOD APRIL – JUNE 2016

ORDER FROM A BRITISH COMPANY IN THE ENERGY SECTOR

Formpipe received a order from a British company in the Energy industry on the ECM product Lasetnet. The order was received through Formpipes partner Ferranti as a cloud based solution. The order value amounts to SEK 1.4 million over a four-year period.

MARKET

Formpipe focuses its offerings on the public sector in Sweden and Denmark, in the international market on the Life Sciences industry and Legal sector and on industry independent offerings in respect of input/output management. According to the Radar Group, ECM continues to be a high priority investment area for companies and organizations.

Greater regulatory requirements and effective information management as a means of competition are important driving forces that have a tendency to be continually strengthened in connection with the increased amount of information.

PUBLIC SECTOR

According to analysts at Radar Group, ECM continues to be a high-priority investment area for the public sector. According to Radar, the ECM market for the public sector in Sweden will see growth of 5.1 (3.0) per cent, with an equivalent figure for Denmark of 4.3 (2.8) per cent.

The ECM market for public sector is less sensitive to market fluctuations than other sectors since they have a continuous need to invest in effective e-government solutions. Shrinking younger age groups must support a growing senior age group, while rising living standards are still expected. Public administration is facing major cost driving challenges and changes in fields such as digitisation and streamlining of operations, accessibility and service via the web and reduced costs for production of standardised IT. Both Formpipe and external analysts estimate that the need for efficient administration will lead to continued investments by the public sector in existing or new ECM systems. The number of public agencies that have a budget for ECM will also increase from year to year. The trend points to reducing operational costs through initiatives like outsourcing, so that resources are freed up for e-administration development. As part of this

trend, investments are increasingly being financed through operating budgets. ECM solutions have evolved from being an IT issue to becoming a strategic business issue.

CHALLENGES/DRIVING FORCES IN THE PUBLIC SECTOR

Public administrations in Europe are facing the challenge of improving efficiency, productivity and the quality of their services. All these challenges must though be met with unchanged or even reduced budgets. Information and communication technology helps the public sector to handle challenges such as:

- Ever increasing squeeze on financial conditions.
- Increased demands in regard to transparency and improved service levels from citizens and companies.
- A demographic reality that means that in future we must do more with fewer resources.

LIFE SCIENCE

Formpipe currently has customers in a number of European countries, as well as in the USA, regarding products and services for quality management and regulatory compliance. Like the public sector, the Life Sciences Industry has strict regulatory requirements. The market is strictly regulated by the national regulations of the market that the product or service is to be submitted to (in the US the regulator is the Food and Drug Administration (FDA), in the European Union it is the EMEA, etc).

It is estimated that the market for ECM products for the Life Sciences industry will grow strongly among medium-sized enterprises (200-1,000 users), as these are starting to use the same efficiency-enhancing tools as the major, traditional pharmaceutical companies. The major companies (more than 1,000 users) are seeing a trend towards replacing several different local systems with integrated turnkey solutions which provide a better overview and reduce administration and maintenance costs. It is thought that the market for EQMS products for Life Sciences companies' subcontractors will also grow, as they need to comply with the industry's regulations on account of the fact that they are increasingly playing a key role in the delivery and supply chain.

INPUT/OUTPUT MANAGEMENT

Formpipe's offering regarding input and output management, Lasernet, is essentially linked to the ERP market. The software is used for designing, converting and distributing business documents with data retrieved directly from any ERP system and it has more than 2,000 customers within a variety of industries all over the world.

Formpipe focuses on further reinforcing its offering for customers implementing Microsoft Dynamics, currently one of the fastest-growing ERP systems on the market. Formpipe has a well-developed partnership with a number of key partners in countries such as the Netherlands, Germany, Denmark and Sweden, and as a result it is able to benefit from the major sales successes for Microsoft Dynamics.

THE FUTURE

Formpipe is a leading supplier of ECM solutions in Sweden and Denmark. The Company considers it is well-positioned to be able to develop and strengthen its leading position while retaining good profitability levels. The company sees good opportunities to continue to utilize its experience from its successes within the public sector in Sweden and Denmark, which from an international perspective are considered models for efficient public administration, in order to target new markets and customer segments. With well-invested products, solid experience of the public sector and facilities for continued product development, the company sees opportunities to focus on the demand at EU level which with increased regulatory requirements can be expected to increase its investments in the coming years. In addition to the Swedish public sector, Formpipe Software also focuses on the life science sector, which like the public sector is a segment that is strictly regulated by regulatory requirements. The Company has developed a competitive offering to this sector. The life science market is faced with the same regulatory requirements regardless of geographical location, which creates a very large international market. The company's strategy with focus on the public sector and Life Science creates good opportunities to be able to efficiently develop market-leading offerings and need sector-specific requirements.

The board believes that Formpipe, which is one of the largest European-based ECM suppliers, is well-positioned with a stable customer base, a high share of recurring revenue and a focus on customer segments with a high need for ECM solutions. At the same time, the board considers that the ECM market is a sector undergoing consolidation and views acquisitions as a good complement to organic growth.

FINANCIAL INFORMATION

Revenues and costs for the outcome and comparison figures has been adjusted to reflect the remaining operations after the sale of the business area Customer Specific Solutions in Denmark during the fourth quarter.

TRANSACTIONS WITH RELATED PARTIES

No transactions with related parties have occurred during the period

ACCOUNTING POLICIES

The group's financial reports are prepared in accordance with International Financial Reporting Standards (IFRS) in the way in which they have been adopted by the European Union, the Swedish Annual Accounts Act, RFR 1 Additional Accounting Regulations for Groups issued by the Swedish Financial Reporting Board and in accordance with the regulations that the Stockholm Stock Exchange stipulates for companies listed on Nasdaq Stockholm. Preparing financial reports in accordance with IFRS requires that the company management makes accounting evaluations and estimates and makes assumptions that affect the application of the accounting policies and the reported values of assets, liabilities, income and costs. The actual result can differ from these estimates and evaluations. This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act. The most important accounting policies according to IFRS, which constitute the accounting standard for the preparation of this interim report, are stated in the company's most recently published annual report. During the fourth quarter of 2015 the business area Customer Specific Solutions has been sold. The business area, which earlier was included in Formpipe Groups segment Denmark, is therefore treated as a discontinued operation according to IFRS 5 and is accounted and disclosed in accordance with this accounting standard.

The financial reports of the parent company have been prepared in accordance with the Swedish Annual Accounts Act and RFR 2 Accounting for Legal Entities issued by the Swedish Financial Reporting Board. The same accounting policies and methods of calculation have been applied in the interim report and in the most recent annual report.

ABOUT FORMPIPE

Formpipe Software AB (publ) is a software company in the field of ECM (Enterprise Content Management). DEFINITIONS

Formpipe uses alternative key figures, also called APM (Alternative Performance Measures). From July 3rd 2016 new guidelines were implemented by the European Union regarding alternative APM's, which Formpipe uses in published reports. Formpipe's APM's is calculated from the financial reports, which are prepared in accordance with applicable rules for financial reporting, where prepared figures is altered by adding or subtracting amounts from the presented numbers. Below the alternative performance measures, that Formpipe uses in published reports, are defined and described

SYSTEM REVENUE

The total of license revenue and revenue from support and maintenance contracts.

RECURRING REVENUE

Revenue of an annually recurring nature such as support and maintenance revenue and revenue from rental license agreement.

EBITDA

Earnings before depreciation, amortization, acquisition-related costs and other items of a one-off nature.

EBIT

Operating profit/loss

FREE CASH FLOW

Cash flow from operating activities minus cash flow from investing activities excluding acquisitions.

EQUITY PER SHARE

Equity at the end of the period divided by the number of shares at the end of the period.

RETURN ON EQUITY

Profit/loss after tax as a percentage of average equity

RETURN ON WORKING CAPITAL

Operating profit/loss as a percentage of average working capital (balance sheet total less non-interest bearing liabilities and cash and bank balances).

OPERATING MARGIN BEFORE DEPRECIATION AND AMORTIZATION (EBITDA MARGIN)

Earnings before depreciation, amortization, acquisition-related costs and other items of a one-off nature as a percentage of net sales.

OPERATING MARGIN (EBIT MARGIN)

Operating profit/loss as a percentage of net sales.

PROFIT MARGIN

Net profit/loss after tax as a percentage of sales at the end of the period.

EQUITY RATIO

Equity as a percentage of the balance sheet total.

EARNINGS PER SHARE - BEFORE DILUTION

Net profit/loss after tax divided by the average number of shares during the period.

EARNINGS PER SHARE - AFTER DILUTION

Net profit/loss after tax adjusted for dilution effects divided by the average number of shares after dilution during the period.
