Press release, September 30, 2013

Formpipe signs contract worth SEK 10.5 million

A client in the Danish public sector and Formpipe sign a new contract expanding their solution of the Grant management product TAS. The total order value amounts to SEK 10.5 million for a duration of four years.

The client has chosen to extend and expand their use of TAS for the next 4 years.

In the public sector in Denmark, there's an increased demand for cost-effective IT solutions that creates greater accessibility, increased automation, improved efficiency and the ability to document effects of granted funds.

“The need to improve the efficiency of administration is boosting demand for ECM products. Our strong position in the public sector presents us with excellent opportunities when local and regional authorities choose to co-ordinate and improve the efficiency of their information management processes” says Christian Sundin, CEO of Formpipe.

Of the total order value, license revenues of SEK 2.7 million are recorded in third quarter of 2013, while associated revenue will be allocated throughout the contract period.
