Formpipe receives strategic order in the Life Science sector

The Dutch company DSM has signed a contract for Platina QMS, to manage and streamline quality processes and quality documentation.

The order is for the company's CMO operations in Holland and Formpipes partner Sigma is the service provider. The agreement includes options for additional licenses for more activities in the DSM.

"The deal is a breakthrough in the European Life Science market. Our partner Sigma made this deal possible and we see this as a sign that we have an attractive and competitive offer, both for the life science industry and for our partner companies. We continue to expand our sales resources by further expanding our network", says Christian Sundin, CEO of Formpipe.

DSM is a global science-based company active in health, nutrition and materials with 23,500 employees. DSM Pharmaceutical Products provides custom contract manufacturing and development services to the pharmaceutical, biopharmaceutical and agrochemical industries.

Platina QMS by Formpipe is a powerful, flexible and modular Electronic Quality and Document Management System (EQMS) that meets industry compliance requirements and provides control in regulated environments for quality and continuous process improvement. Platina QMS provides pharmaceutical, biotechnology, medical device, contract research organisations (CROs) and contract manufacturing organisations (CMOs) with a highly flexible framework to streamline quality management.
